What constraints prevent your customers from taking action or limit their choices i.e. working parents of 0-5 y.o. kids of solutions? i.e. spending power, budget, no cash, network connection, available devices.

Which solutions are available to the customers when they face the problem or need to get the job done? What have they tried in the past? What pros & cons do these solutions have? i.e. pen and paper is an alternative to digital notetaking

The deaf and dumb, whom we collectively term as the "Specially-abled" people.

The specially-abled people find difficulties in communication with others. This makes them reluctant to encounter new environment and people.

Deaf and dumb tend to write or text in order to communicate which is found unviable in absence of necessary materials. They also make use of lipreading, gestures and pointers to communicate.

## Which jobs-to-be-done (or problems) do you address for your customers?

#### 2. JOBS-TO-BE-DONE / PROBLEMS

There could be more than one; explore different sides

J&P

What is the real reason that this problem exists? What is the back story behind the need to do this job?

9. PROBLEM ROOT CAUSE

i.e. customers have to do it because of the change in regulations.

Conversion of sign language into audio and text messages.

Normal people don't take any effort to learn sign language which makes the communication with the specially-abled difficult.

7. BEHAVIOUR

RC

SL

What does your customer do to address the problem and get the job done? i.e. directly related: find the right solar panel installer, calculate usage and benefits; indirectly associated; customers spend free time on volunteering work (i.e. Greenpeace)

They seek for interpreters and mobile applications to build communication with normal people.

#### 3. TRIGGERS

TR

EM

What triggers customers to act? i.e. seeing their neighbour installing solar panels, reading about a more efficient solution in the news.

ability when compared to normal people.

4. EMOTIONS: BEFORE / AFTER

The ease of communication by the normal people.

Before: Feeling unfair about their communication

After: Feeling better and bridging the gaps between

#### 10. YOUR SOLUTION

fill in the canvas, and check how much it fits reality.

If you are working on an existing business, write down your current solution first,

If you are working on a new business proposition, then keep it blank until you fill in the canvas and come up with a solution that fits within customer limitations, solves a problem and matches customer behaviour.

To develop a web-based application to facilitate the communication between the normal and the specially-abled people using advanced deep learning algorithm.

#### 8. CHANNELS of BEHAVIOUR

8.1 ONLINE

What kind of actions do customers take online? Extract online channels from #7

Social media application like Twitter, WhatsApp etc.

What kind of actions do customers take offline? Extract offline channels from #7 and use them for customer development

Local Community Camps conducted by NGOs, advertorial posters and interpreters.

# Š 2 Identify strong

people.
